Jumbo 942 Si with roof

Jumbo 942 GR without roof

A lot of space for **many letters!**  
Slot format DIN C 4: 327 x 32 mm

### 2 in 1:

Two extra large letter boxes in one.  
Can be used variably for 1 or 2 users:  
**removable shelf** - thus you obtain an extra large compartment.

Galvanized and high-quality coated.  
Permanent **aeration system**.  
All pieces and assembly instruction included.

With drillings for **floor fixing**.  
These drillings are covered by the lower shelf.

▶ The **pointed roof** is included.  
Good protection, nice appearance.  
Easy installation from the inside.

▶ Here you can install a **cap** instead of the lid - in case the second lid is not used.

# Stands for letter boxes

Stand UNIVERSAL 150,  
view from reverse

## Universal 150

BURG-WÄCHTER letter box stand made of stainless steel/rustproof.

- Universal use for all letter boxes made of stainless steel, galvanized steel and plastic
- Consists of 2 tubes with special punching
- Letter boxes are secured from the inside onto the tubes, offering thereby increased theft protection
- To embed in concrete
- The tubes can be shortened as required
- This stand can also be fixed to a wall with usual pipe clips

Art.-No.	EAN	Height	Ø
	40 03482...	mm	mm
<b>Universal 150 Ni</b>	00300 8	1500	34

## UNI 190 NI

### Inox bow - to be attached to the Universal 150 Ni stand

Can be added to the stand also afterwards. Made of stainless steel.

Easy assembly:

- Remove the plastic cover plates
- Put the bow into both tubes of the Universal 150 Ni stand
- Fix the bow with the screws of the stand when fixing the letter box.

**Suitable for all models with a horizontal hole distance of 190 mm: Verona, Comfort/Comfort-Set, Lucca/Lucca-Set, Amrum/Amrum-Set, Modena, Borkum, Inoxstar, Olymp/Olymp-Set, Futura/Futura-Set, Amsterdam, Potsdam, Set Vario, Bayreuth, Classico**

Suitable for all models with a horizontal hole distance of 190 mm

# Interpretation of the legend symbols

## Original BURG-WÄCHTER letter boxes

### Quality Made in Germany - approved according to the European norm EN 13724

What does the European norm "EN 13724" for letter boxes mean and which advantages are offered?

All letter boxes in this catalogue which are marked with the symbol "EN 13724" correspond to the high demands of the European standard and are recommended by the postal service.

The standard EN 13724 defines the size of the letter box, which means sufficient space for your post and the slot dimensions.

Furthermore the new European standard classifies the protection against breaking-in and corrosion.

Even the lock quality and resistance of rain-water penetration is tested.

In order to convey a clear overview of the quality of the particular letter box, BURG-WÄCHTER has developed a "Letter Box Passport" which contains the information of the following criteria corresponding to the demands of the new European standard EN 13724:

Category	Quality / feature	Pictogram
Type	1. for exterior use 2. for interior use 3. post insertion (wall assembly) 4. post insertion (door assembly)	
Format	1. landscape format 2. portrait format	
Corrosion resistance	0. no defined corrosion resistance 3. standard corrosion resistance 4. higher corrosion resistance	
Resistance against breaking-in	1. standard resistance against breaking-in 2. higher resistance against breaking-in	

Tip: To have more convenience and pleasure with your letter box, choose a model according to EN 13724 - this will be the right decision!

**BURG-WÄCHTER letter boxes with interior lighting.** Then you can easily pick up your letters even if it is dark outside.

**BURG-WÄCHTER letter boxes with comfortable depth.** For everybody who gets a lot of mail or wants to leave his letter box alone for a week.

**BURG-WÄCHTER opening stop:** The special hinge ensures a practical handling. The opening stop protects letters from dropping.

**BURG-WÄCHTER letter boxes made of high quality stainless steel** are extremely weatherproof and long-lasting. Stainless steel is a refined natural product which is durable throughout many decades without varnishing.

Concerns dimensions

**H x W x D:** Total dimensions height x width x depth in mm

**Slot:** Dimensions width x height in mm

## Colour table for letter boxes and paper boxes

### Letter boxes made of galvanized steel

Colours	Model
